

La tableau ci-dessous donne la liste des ressources accessibles en standard depuis le catalogue de Ressources. Extrait de la documentation de la PS5. Un <u>autre tableau plus comple</u>t existe avec les liens pour doc détaillée.

Folder Name	Description
	Includes task flows from the following WebCenter Portal services to track alerts and
	notifications:
	• Activity Stream, to view activities of your connections, actions taken in spaces, and
	business activities.
	Announcements, to view current announcements.
	<ul> <li>Discussion Forums, to list the most frequently used and most recently accessed topics.</li> </ul>
	Documents, to list recently created or modified documents.
	<ul> <li>Notifications, to view space- and object-level subscriptions.</li> </ul>
	• Polls, to view available polls.
	• RSS, to view feeds from external sources and WebCenter Portal services.
	• Worklist, to view all worklist items that require your attention.
Analytics	Includes the Analytics service task flows. These task flows help to track and display different metrics, such as response times and usage behavior, for the Spaces application.
Content Management	Includes the documents task flows, which can be used to access, add, and manage
	folders and files, or display content in a predefined template.
Mash-Ups	Includes the following resources that enable you to create business mashups:
	• Data Controls: Folder that includes data controls created for the application at
	design time and runtime.
	• Task Flows: Folder that includes task flows created in the Resource Manager at
	runtime. These are visualizations created by gathering data from various data
	sources and publishing to different layouts such as charts, tables, and graphs.
	• Omniportlet: A portlet to publish data from a variety of data sources (including
	SQL, XML, web services, spreadsheets, and web pages) to several different layouts, such as customizable charts and tables
	• Pagelet Producers: Folder that includes pagelets deployed in the pagelet producer.
Polls and Surveys	Includes the Polls service task flows that can be used to create, edit, and take online
rons and Surveys	polls on your application pages. Polls let you survey your audience, check whether
	they can recall important information, and gather feedback on the efficacy of
	presentations.
Portlets	Includes the following resources:
	Administrator-level tools for registering and managing external applications and
	portlet producers.
	• Portlets, which provide a means of presenting data from multiple sources in a
	meaningful and related way. Out-of-the-box, this folder contains the Omniportlet and Web Clipping portlets.

Folder Name	Description
